Neo Ngwenya

Web Developer

SUMMARY

Determined and fast-learning Frontend Developer with a strong foundation in JavaScript, React, and AngularJS. Adept at creating dynamic and user-friendly web applications. Experienced in collaborating with cross-functional teams to deliver high-quality projects. Proficient in responsive design, version control systems, and continuous learning of new technologies. Passionate about problem-solving and committed to producing clean, efficient, and maintainable code. Ready to contribute effectively to team success and eager to tackle new challenges in web development.

WORK EXPERIENCE

Junior Web Developer

01/01/2023 - current

Aglet Inc.

As a Junior Web Developer at Aglet, I actively contribute to the development of dynamic web applications using Next.js, ReactJS, AngularJS, and WordPress. I collaborate with team mates to create responsive, user-friendly interfaces and implement custom features. My role involves developing web pages using the above mentioned frameworks, ensuring high-quality deliverables, and continuously learning and applying the latest web technologies. This position has honed my technical skills, attention to detail, and ability to work effectively in a fast-paced environment.

Freelance Frontend Project Manager

01/09/22 - 31/11/22

NEA Global | Kenya

As the Frontend Project Manager at NEA Global, I led the development and management of a website on a freelance basis. I directed the frontend team, coordinated with the client to gather requirements and provide updates, and ensured timely delivery of project milestones. I oversaw the implementation of responsive design, maintained high standards of code quality in HTML, CSS, JavaScript, and React, and resolved technical challenges to ensure a seamless user experience. This role enhanced my leadership, communication, and technical skills, solidifying my ability to manage and deliver complex web development projects successfully.
